

## Sensorimotor History

Child's Name \_\_\_\_\_

DOB: \_\_\_/\_\_\_/\_\_\_

Date: \_\_\_\_\_

Please think of the various stages of your child's development, considering behavior, which comes to your mind as you answer these questions.

The following questions are posed to help in compiling a more complete picture of your child from early infancy to his/her present developmental stage. Some of these questions may refer to children who are older than your own. Please add narrative information, which may also be important in the spaces provided. Thank You.

<b>Visual:</b>	Y	N	S
Does (or is) your child:			
Have a diagnosed visual problem?			
Seem sensitive to light?			
Have trouble following objects with his or her eyes?			
Avoid eye contact?			
Distracted by visual stimuli?			
Dislike having eyes covered?			
Have poor spacing of letters?			
Have trouble discriminating shapes or colors?			
Squint often?			
Make reversals when copying or reading?			
Have difficulty with puzzles?

Leave clothes twisted on body?			
Grasp objects (ex: pencil or spoon) loosely?			
Have difficulties with personal space?			

<b><u>Oral Sensory Processing:</u></b> Does (or is) your child:	Y	N	S
Always putting things in their mouth? (ex: shirt, fingers, pens or backpack)			
Chew or lick non-food items?			
Have trouble handling textured foods?			
A picky eater?			
Sensitive to any smells?			
Gag easily on foods?			
Stuff or put too much food in his/her mouth?			
Have trouble chewing?			
Have trouble swallowing?			
Show distress with foods? (ex: facial grimaces, or eyes watering)			
Taste or smell toys or clothes?			
Likes only highly textured foods?			
Prefer certain foods excessively?			
Have limited food choices?			
Have a negative reaction to the presentation of new foods?			
Avoid certain foods that are typically a part of a child's diet?			
Examine objects or clothing with his/her mouth?			

<b><u>Vestibular (Movement):</u></b> Does (or is) your child:	Y	N	S
Constantly seek movement? (ex: rock while sitting)			
Like to spin and doesn't seem to get dizzy?			
Spin or whirl more than other children?			
Require a lot of rocking, bouncing, or swinging as a baby?			
Get nauseous from other movement experiences?			
Get carsick easily?			

Lose balance easily?			
Have a fear of climbing?			
Avoid swings, carnival rides, or moving equipment?			
Avoid somersaults or their head going down or back?			
Seek opportunities to crash or fall without regard to safety?			
Trip or fall frequently?			
Fall out of chair frequently?			
Fall, failing to catch self when falling?			
Have generally poor coordination and appear to be clumsy? (ex: sloppy eating, difficulty dressing, dropping things, etc.)			
Have difficulty learning new motor tasks?			
Show more distress than typical when riding elevators, escalators or in revolving doors?			

<b><u>Muscle Tone:</u></b> Does (or is) your child:	Y	N	S
Slump when sitting?			
Get tired easily?			
Seem generally weak for his/her age?			
Lean on people?			
Prefer to lie on back rather than stomach?			
Have poor sitting/standing posture? (ex: need to prop head in hand while reading or writing at desk)			
Have low endurance?			
Appear to have low energy or is lethargic?			
Prefer sedentary play? (ex: watching TV, on the computer)			
Have a weak grasp?			

<b><u>Coordination:</u></b> Does (or is) your child:	Y	N	S

Sit, stand or walk late?			
Creep or crawl very little?			
Have rigid movements?			
Move slowly, ploddingly or deliberately?			
Seem clumsy when playing with toys appropriate for age?			
Have trouble with sequential tasks? (ex: dressing, buttoning, or shoe tying)			
Have trouble handling small things?			
Have difficulty learning to hold a pencil, crayon or eating utensil?			
Have poor handwriting?			
Bump into things a lot?			
Make a mess while eating?			
Grimace or use tongue during fine motor tasks?			
Get shaky when performing fine motor tasks?			
Dislike sports, gym etc.?			
Use too much or not enough pressure?			

<b><u>Behavior, Emotional, and Social Response or Temperament:</u></b>	Y	N	S
Does (or is) your child:			
Have trouble being quiet, calm, relaxed and patient?			
Too active, outgoing, and too enthusiastic and it is affecting his/her day?			
Seem hyperactive, in perpetual motion sun up to sun down?			
Stubborn or uncooperative?			
Rigid in play?
